* Approximate.

All letters, telegrams, etc., intended for the Executive and staff should be addressed "Madras Government's Camp, India," without the addition of any post town.

The party accompanying the Executive will be—

T. E. Munn, Esq., C.I.E., I.C.S., Private Secretary
Captain W. E. S. Kemp, Military Secretary.
Captain L. M. Poon, Aide-de-Camp.

Government House, Coimbatore,
17th August 1918.

W. S. K. KOSSEY, Captain,
Military Secretary.

PRIVATE SECRETARY'S OFFICE.

NOTICE.

Coimbatore, August 4, 1918.

With reference to the press communiqué from Madras, dated 24th July 1918, regarding temporary King's Commission in the Indian Army, which was published in the newspapers on the 25th July 1918, the following information is published for the use of intending candidates:—

(1) Candidates must be between the ages of 18 and 35 on the 1st January 1919 though exceptional cases not satisfying this condition will be considered. Candidates must invariably state their age.

(2) In making selections special consideration will be given to members of families possessing military traditions and to those whose families have shown valour or meritorious service rendered distinguished services to the State. Candidates should give full information on these points and on regard to social status of the families to which they belong. Candidates are also advised to state whether they are themselves possessed of private means or whether their families are in a position to provide them with an allowance.

(3) Candidates must possess any one of the following certificates:—

- A diploma of the Madras College;
- A school-leaving certificate;
- The Matriculation examination of an incorporated University;
- Any higher examination.

Candidates must state whether they are so qualified and submit the documents or give the references necessary to establish their claim. Those who do not possess any one of the above certificates will be required to pass a qualifying examination. The detailed syllabus of this examination is appended as an appendix to this notification.

(4) These notices will have to appear for a further and last conducted in Madras to the Adjutant-General for the Madras Army. Selected candidates will be granted leave from pay and from home. The Private Secretary to the Executive the Governor of Madras in whose application should be made will submit to the selected candidates the form of their selection and the date on which the oral test at Madras will be held.

(5) A medical examination as prescribed for admission to the Royal Military College, Sandhurst, will also be held at Madras. In order to prevent disappointed candidates are advised to undergo a preliminary medical examination at their homes. The schedule of the medical examination is held down in Appendix C of the Regulations for the Army Medical Service, 1918.

(6) Selected candidates will undergo a course of instruction in Training School in India, and, whilst in residence, will be placed in Cadets. The length of the course will vary with the standards of the student, but will not ordinarily exceed one year. On completion of the course, students who qualify in the passing-out examination will be granted temporary King's Commissions in the Indian Army provided they are in good moral and bodily health and free from any physical defect likely to interfere with the performance of their military duties. Those who are successful will come into the Army as temporary Second Lieutenants and will be subject to the same regulations and enjoy the same status as British officers of the same rank. They will be eligible for promotion later for permanent commissions in the Indian Army and, should their services not be required at the end of the War, they will be treated with the following guidelines:—

For the first year or any part of a year of service ... Three months' full pay and allowances.
For each succeeding year or part of a year of service ... One month's full pay and allowances.
and with permission to wear the uniform of the rank held on retirement.

(f) While at the Training School, cadets will be provided with standing, uniform, and books, free of cost. No pay will be allowable except in the case of cadets who already belong to the Indian Army, who will draw the pay of their permanent rank. Allow will be provided for instruction in aquatics. No cadet will be allowed more than one personal servant, who will be paid by himself.

On obtaining No temporary commission each cadet will be given Rs. 400 for the purchase of equipment and kit.

APPENDIX.

SCHEDULE OF EXAMINATION FOR CANDIDATES FOR ADMISSION TO THE TRAINING SCHOOL FOR INDIAN CADETS.

1. The subjects of the examination and the maximum number of marks obtainable for each subject are as follows:—

	Class I (Openness)	
	Marks.	Marks.
(i) English	2,000	(1) Mathematics (elementary) .. 2,000
(ii) Indian History and General Geog- raphy	2,000	(2) An Indian Vernacular 2,000
	Class II (Openness).	
	Marks.	Marks.
(i) and (ii)— (a) Urdu	1,000	(1) Science (Physics and Chemistry) .. 2,000
(b) Persian or Hindustani	1,000	(2) Mathematics 2,000

2. All the subjects in class I must be taken up and not more than two of the subjects of class II. If Urdu is selected as subject (or) in class I, it cannot be taken up as one of the two subjects in class II.

3. Candidates will be required to qualify (i.e., to obtain not less than 33 per cent of the total marks allotted) in each of the four obligatory subjects named in class I.

Candidates who fail in one obligatory subject but make 5,000 marks or more in the aggregate will be classified as qualified candidates according to the aggregate of the marks obtained.

4. In addition to the above-mentioned subjects candidates may take up frehand drawing to which no marks will be allotted.

5. One of the following certificates will be accepted in lieu of this examination:—

- (a) A diploma of the Chiefs' College.
- (b) A school-leaving certificate sanctioned by a local Government.
- (c) The Matriculation certificate of an incorporated University, or
- (d) Any higher examination.

6. Candidates satisfying the educational standard prescribed in paragraph 5 at 5, in the case may be, will, in addition, undergo a special test consisting of an oral examination conducted on similar lines to the *Adaptability Test* for the Royal Naval College. This examination, which is designed to test the intelligence and general knowledge of candidates, will be conducted by a Board of officers stationed under the orders of His Majesty the Commander-in-Chief, two of whom at least will be General Officers who have commanded Indian regiments, and one a civil, political or other national officer selected by His Majesty the Viceroy.

SCHEDULE OF SUBJECTS FOR THE ENTRANCE EXAMINATION.

English—Marks 1,000.

Dictation.
Essay. Three alternative subjects to be given for as many or fewer of which candidates may choose one.

Reproduction of a passage read out to the candidate.
General paper (to test general knowledge and intelligence).

Indian History (General)—Marks 1,000.

Questions will be set which will give the candidate an opportunity of showing his general knowledge of Indian History. Questions will deal only with the broad outlines of the subject and knowledge of detail will not be expected. Some choice of questions will be allowed.

Geography—Marks 1,000.

The Earth—its dimensions and surface measurements.

Latitude and longitude. Its measurement, right and wrong.

The main physical features of the world, with special reference to the British Empire.

General political geography of the world, with special reference to British possessions and India, and the foreign frontier territories adjacent to them.

Mathematics (Elementary)—Marks 2,000.

All candidates will be expected to know British Money, Square and Circle Measure and Avoirdupois weight.

The ordinary rules of Arithmetic. The interpretation.

Measurement of length: scale, callipers. Measurement of area by dimensions (rectilinear figures and circles), by squared paper.

[Algebraic formulae and symbols may be used. Questions will not be set as general values or true divisors. The extent of the cube root and the use and theory of recurring decimals are not required.]

The questions set will test knowledge of fundamental principles, and facilities in application to simple practical problems. Statement and accuracy of working are expected, and the methods of solution employed must be clearly indicated. In the solution of special instructions that a question is to be answered by a particular method, candidates are at liberty to show their own method from any branch of mathematics.]

AN INDIAN VERNACULAR—MARCA 2,000.

1. Translation from the Vernacular into English.
2. Translation from English into the Vernacular.
3. An essay or letter on one or two alternative subjects.
4. Calligraphic. Candidates to—
 - (i) talk in the Vernacular.
 - (ii) write a short dictated passage in the Vernacular.

GUJARATI—MARCA 2,000.

1. Translation from Gujarati into English.
2. Translation from English into Gujarati.
3. An essay or letter on one or two alternative subjects.
4. Calligraphic. Candidates to—
 - (i) talk in Urdu.
 - (ii) write a short dictated passage in Gujarati.

PUNJABI OR SIKH—MARCA 2,000.

1. Translation from Punjabi (or Shi-kh) into English.
2. Translation from English into Punjabi (or Shi-kh).

SCIENCE (PHYSICS AND CHEMISTRY)—MARCA 3,000.

Physics—MARCA 1,500.

Mech.—Construction and use of thermometers. Expansion of solids, liquids and gases. Specific heat. Phenomena of change of state, vapour pressure, latent heat. Simple phenomena of radiation, absorption and reflection of heat. Heat as a form of energy.

Light.—Mechanical properties. Reflection and refraction; formation of images by plane and spherical mirrors, and by convex and concave lenses. Telescopes and microscopes. The dispersion of light by a prism.

Magnetism.—Simple phenomena of magnetism; induction. Lines of force in a magnetic field; terrestrial magnetism. Elementary quantitative values of strength of pole, magnetic force due to a pole, strength of field.

Electricity.—Electrostatics; induction. The electrometer; electrometers. Elementary notions of potential and capacity. Distribution of charge on conductors.

Practical work.—Simple experiments on the determination of the preceding syllabus, for example:—

Verification of Boyle's law. Testing the standard points of thermometers. Determination of specific and latent heat by the method of mixtures. Demonstration of melting and boiling points. Verification of the laws of reflection and refraction. Demonstration of the positions of images formed by plane and spherical mirrors and by convex lenses. Mapping lines of force in magnetic fields.

[In the event of a practical test being impossible, the whole of the marks will be allotted to the written papers.]

Chemistry—MARCA 1,500.

Classification of matter into simple substances and mixtures, elements and compounds. The chemistry of water and of the most common elements; water as a solvent; natural waters.

The atmosphere; combustion, explosion, the various classes of oxides. Acids, bases and salts. Chlorine and hydrogen chloride; nitrogen, ammonia and azo acids; sulphur, sulphur dioxide and sulphuric acid. Carbon; the oxides of carbon; carbonates. Flame. Physical properties of the commoner solids; mercury, lead, tin, copper, zinc, iron, and aluminium; and preparation of their common salts.

Practical work.—Simple exercises, which may include weighing and the measurement of volumes of liquids and gases, will be set as the subjects of the preceding syllabus, for example:—

Determination of change of weight in a simple reaction; measurement of the gas evolved during solution of a metal. Observation of the behaviour of substances under the influence of heat and in simple chemical reactions. Preparation of the gases concerned above; preparation of salts from acids and carbon by general methods.

Questions will not be set on metallurgy or on technical processes of manufacture.

Candidates will be instructed to observe accurately and to draw diagrams of the work done. Where necessary, sufficient instructions will be given to enable candidates to apply their general knowledge of general chemistry to the problems set.

In the event of a practical test being impossible, the whole of the marks will be allotted to the written papers.]

MATHEMATICS—MARCA 3,000.

Algebra and Arithmetic.—Euclid's Mathematics (Elements) together with—
Use of decimals in approximate calculation.

Measurement of volume by displacement (cylinder, sphere, cone and pyramid), by displacement (rectifier, graduated jar, beaker), by use of the principle of Archimedes (measurement of weight, use of balance). Measurement of density of solids and liquids.

[Algebraic formulae and symbols may be used. Questions will not be set on general rules or on theorems. The extension of the rules set, and the use and theory of recurring decimals, are not required.]

Geometry.—The elements of Descriptive Drawing and Practical Geometry. Measurement of angles, area of polygons. The contents of books I to III of Euclid's Geometry, including application to the measurement of area. A working knowledge of as much of the properties of similar figures and solid figures as is necessary in plan-making and simple problems in construction.

Algebra.—Two easy *algebraic* equations. The elementary use of graphs.

[The solution of equations should be worked out in a few significant figures; the candidates should be cautioned to test the accuracy of solutions by substitution. *Calculus* is elementary analysis, such as the simplification of complicated fractions, will not be looked for.]

The questions in mathematics will test knowledge of fundamental principles and readiness in application to simple practical problems. Exactness and accuracy of working are expected, and the methods of solution employed must be clearly indicated. In the absence of special instructions that a question is to be answered by a particular method, candidates are at liberty to choose their own method from any branch of mathematics.]

(Education.)

NOTIFICATION.

Calcutta, August 18, 1916.

No. 112.—In order to further the development of indigenous industries, the Government of India have instituted, with the sanction of the Secretary of State, a scheme of technical scholarships to be awarded to students of India who have shown exceptional initiative in any branch of industry and who are likely to add considerably to their usefulness by a special training in Europe or America. The number of students from the Madras Presidency who can hold technical scholarships in Europe at one time is limited to three.

1. The scholarships are awarded for the promotion of existing Indian industries and the development of new industries. They will not be given for law, medicine, dentistry, veterinary science, agriculture, civil engineering (other than sanitary and municipal engineering) or geology, nor for the extraction of alkalis or vegetable oil pressing. It should be noted that outside industries in Europe, such as bookbinding, dyeing, tanning and manufacture of chemicals, may receive special facilities for practical work for students; in other branches of technological study, such as engineering and the textile industries, adequate opportunities are probably to be found for students who possess the necessary aptitude and training.

2. The scholarships are of the value of £250 per annum to be held subject to the observance by the holder of the rules laid down for him by the Secretary of State. The scholarships may be withdrawn by the Secretary of State at the end of any year and it may be refused while the scholar is being trained at work if the employer recommends the removal. The selected scholar will also be required to execute a bond (vide annexure II) undertaking to repay the amount of the scholarship by his removal to India to return to India when sanctioned by the Secretary of State to do so.

4. The scholarship in Europe will be tenable for a suitable term, not less than two nor more than five years. In certain cases it may be desirable that they should be preceded by a period of not less than one year and be followed by a period of about one year's practical work in India. In such cases, the local Government will speak from Provincial revenue scholarships not exceeding Rs. 100 per annum for the preliminary period of practical work.

5. Two scholarships are available for award to candidates from the Madras Presidency in 1910. Candidates desirous of presenting their study under this scheme should submit their applications to the Governor of India in London as far as possible by the 15th September next.

Applicants will be considered only from persons who have already acquired theoretical and practical knowledge of the industry and who are desirous of improving their knowledge of that industry by further training in Europe. Applicants should specify in their applications—

- (a) their educational qualifications,
- (b) the industry which they propose to study,
- (c) their connection with that industry,
- (d) the extent of their practical experience in it, and
- (e) the point, if any, of their educational aptitude as industrial book of mind.*

Every applicant should also furnish proof—

(1) that he is a native of India, or, a person born and domiciled within the dominions of His Majesty in India, of persons habitually resident in India and not established there for temporary purposes only,

(2) that he has the consent of his family (i.e. of his father or guardian) to proceed to Europe or America;

- (3) that his character is good;
- (4) that he is not over 25 years of age;
- (5) that he has sufficient knowledge of the English language; and
- (6) that he is physically fit to undergo the strain of life and study that he will have to follow.

6. In the case of indigenous industries, such as weaving, their spinning, etc., a scholar should, if possible, in addition to an aptitude for the industry, be well acquainted with the technical and educational qualifications, but in the case of specialists who have not both qualifications, those who have the education or aptitude for the industry would be given preference, provided they have sufficient working knowledge of English to follow lectures in that language.

7. The educational qualifications referred to above are as follows: Those who are to study textile industries should have read up to the standard of the B.Sc. degree at the U.A. (with honours) or have obtained an equivalent degree. Those who take up any branch of engineering should have passed the B.A. if it is in Science, should have a knowledge of mechanical drawing and descriptive geometry, and should have taken mathematics, physics and chemistry among the subjects for their degree. Applicants should produce certificates from the University showing in what subjects they have passed, what degrees of proficiency they have reached and what marks they have secured. Certain special suggestions regarding particular industries are incorporated in Annexure I to this notification.

8. Candidates should also understand (a) that the scholarships are not intended to enable the holder to prepare them for Government service, (b) that the scholar in each case is selected for a definite purpose and will be expected on proceeding to England to enter at once and without deviation of possible alterations to the course of training laid down for him and to comply with whatever restrictions and to do whatever kind of work it may involve, and (c) that, when his period of training is over, he will be expected to return to India and to use the knowledge he has gained for the benefit of his country.

9. Selected scholars should, in the first instance, communicate with the Madras Secretary's Advisory Committee in order that they may obtain advice regarding certificates, etc., and they should, when proceeding to England, take with them the originals of those certificates, testimonials and other important personal documents suggested to them by the Secretary to the Madras Secretary's Advisory Committee.

10. Selected scholars who intend to begin their training in England with manual work should ordinarily reach England in March or April 1910. Scholars who intend to commence their training in Europe with purely academic work should reach England not later than the middle of September 1910. The scholarships will be payable from the date on which the scholar reports their arrival in England. Selected scholars will be provided with a second-class passage to England and also with a second-class return passage if they away on the instructions of the Secretary of State and complete the full period of residence or are compelled by sickness to return within that period.

11. On the return of a scholar to India the Board of Scholars appointed by Government will with the assistance of local manufacturers and employers, endeavour to find employment for him, whether he is provided with a further scholarship or not. When a scholar has a scholarship after his return, the Board will settle the nature of his practical training while he is desirous of the scholarship and what, if any, other work he may undertake, obtain from the new employer a report on the way in which the scholar has progressed during his training and his value as a technological specialist. In every case the scholar shall at the end of the period of his training receive from the Board a detailed statement of his training together with the final opinion of the Board on his qualifications.

12. The following rules have been framed by the Government of India for the guidance of Indian Government scholars in the United Kingdom:—

(1) All Government scholars are required to avail themselves of the information and advice which the Educational Adviser in the Secretary of State for India and the Local Adviser* at University centres are in a position to give them, and to apply to their Local Adviser for instructions as regards their studies and every communication of difficulty. The Local Adviser* at Oxford,

* The Secretary to the University of Oxford and the Secretary to the University of Cambridge are the Local Advisers at Oxford and Cambridge respectively.

Cambridge, Newcastle, Edinburgh, and Glasgow have charge of Government scholars studying at those Universities. Scholars studying elsewhere will be under the charge of the Educational Adviser in London. The Adviser is the proper person to bring before the Educational Adviser to the Secretary of State for India any matter requiring the notice of the Secretary of State in Council.

(2) Every scholar should on reaching England at once report himself to the Educational Adviser in London at 21, Grosvenor Road, S.W. Accommodation for new arrivals is provided in Oak House. After seeing the Educational Adviser in London, and consulting with him as to the course of study, he should also call on the Educational Adviser to the Secretary of State for India at the India Office.

(3) Every scholar must obey all instructions which he may receive, either through the Educational Adviser to the Secretary of State for India or through his Local Adviser*, and must consult his Local Adviser* regularly in regard to his work. He cannot of itself will be sanctioned, which does not provide for an adequate practical training. Any course which has received the sanction of the Secretary of State will not be changed without similar sanction.

(4) Every scholar must, from time to time, whenever the Local Adviser* requires it, submit a certificate from the proper College or University authority, or from any other authority under whom he is working, showing that he is actually and vigorously prosecuting his studies.

(5) Every scholar must devote himself exclusively during the tenure of his scholarship to the study of the subject for which his scholarship was granted. Any scholar who engages in any other work or in any other profession, commercially, will render himself liable to forfeiture of his scholarship.

(6) Every scholar will be required to keep a constant diary, to be submitted at the end of each year to his Local Adviser*, and to be forwarded through the Local Adviser* at the end of each academic year to the Secretary of State for India.

(7) Scholars will be required to continue their studies during vacations with the exception of those weeks in each year. Vacation study should, as far as possible, take form of practical work.

(8) Plans for vacation work, accompanied by a complete estimate of any extra expenses for food or travelling involved, should be sent in to the Local Adviser* not less than two weeks before the vacation term. Scholars are not entitled to any reduction of allowance in addition to the scholarship allowance during time spent on vacation work, but a scholar who receives permission to visit the continent may, if the Secretary of State for India in Council considers that the circumstances render it desirable, be granted a subsistence allowance calculated at such rate as the Local Adviser* may decide.

(9) Subject to the above conditions, the scholar's allowance will be paid quarterly in advance by the India Office to the Local Adviser* under whose charge he is. It will begin from the date of the scholar's reporting his arrival in England, and the Local Adviser* will disburse it to the scholar in such instalments as may seem fit. Three months after the date of reporting, arrival, the amount to the ensuing official quarter day will be paid to the Local Adviser*, and subsequent payments will be made in advance on or after each official quarter day.

The allowance will, except in special cases, be at the rate of £100 a year.

(10) Every scholar is required to lodge with the Educational Adviser to the Secretary of State for India at the India Office, London, before his arrival in England, the sum of £10 for initial expenses. He will have no claim to payment of any subsistence of his scholarship until this deposit has been made.

(11) Charges for University and college fees, premiums for practical training, and the necessary expenses of scholars by second class, or by third class if no second is available, will if sanctioned, be defrayed by the Secretary of State. Applications for payment of all such charges should be made through the Local Adviser*. But charges for private tuition, unless specially sanctioned, for books, maintenance, hotel bills of students, and other expenses must be paid by the scholar himself.

(12) No scholar can be admitted for the payment of any expenditure unless the scholar has obtained previous sanction from the Secretary of State.

(13) The scholarship is granted on the first instance for two years, unless the Secretary of State in the exercise of his discretion sees reason to terminate it sooner. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to comply with the rules here set forth. It may be terminated at any time if a scholar fails in health or conduct. It may also be extended for a third year or longer, if the Secretary of State decides that such an extension is required to complete the scholar's training.

(14) On the expiration of the scholarship a scholar is provided by the India Office with a free second class passage to India, and he should apply for it without delay through his Local Adviser*. He is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office. If a scholarship is forfeited, or if it is assigned before completion of its term, or if the holder of it, on completion of his term, declines to return to India when instructed to do so, the scholar will lose his claim to a free passage back to India.

15. The Director of Public Instruction will place the applications received before the Board of Education, and, subject to the Board's recommendation to Government before the British and Foreign School Board. Full information as to the qualifications, physical, academic, practical, and training undergone, if any, and other particulars in respect of the scholars recommended should be furnished in the form printed on page 7 of G.O. No. 203, Education, dated the 2nd May 1923.

ANNEXURE I.

Agreements regarding special industries.

1. Engineering.—(1) All engineering students of whatever branch should receive a year's practical workshop course in a qualified engineer's shop in India.

* The Secretary to the Deputy for Districts at Delhi and the Secretary to the Government of Oudh will be at Calcutta on the Local Adviser's Office and Calcutta respectively.

† Here—The official quarter days are the 1st of January, the 1st of April, the 1st of July and the 1st of October.

(b) Indians who come in the United Kingdom for their college course should have taken the B.A., B.Sc., or B.Eng. degrees and have received a training in mathematics, physics, chemistry and engineering-drawing of a sufficiently advanced character to enable them to join a second-year class at once upon arrival in mechanical drawing and descriptive geometry is required, and should be given in India.

(c) *II. Mining*—(i) Scholarships in Mining (to distinguish from Geology) shall only be given to men who intend to become mine managers or mining engineers.

(ii) In any case the candidate shall have actually worked for at least one year in an Indian mine—preferably in a paid position.

(iii) A specially strict test of physical fitness shall be imposed on candidates before selection.

(iv) The candidate shall have reached the B.A. or B.Sc. standard in physics (theoretical and practical), chemistry and mathematics, mechanics and practical geometry.

(v) *III. Quarrying*—Candidates should possess a knowledge of economic geology and some experience of surveying and mining methods.

(vi) *IV. Metallurgy*—(i) Scholarships should be granted only to men who have had previous experience of metal industries, a knowledge even of primitive processes being valuable, but candidates who lack such experience should be sent for some months to work in India before coming to this country for their training.

(ii) It is possible to give a general knowledge of the branch of metallurgy that the scholar intends to take up on his return to India.

(iii) *V. Smelting and Foundry*—Scholars should, in all cases have had considerable experience in one or more Indian works, preferably through having served in a paid position.

(iv) *VI. Alloying and Finishing*—It is almost impossible for Indian students to obtain in England anything more than the training given in technological colleges, and, in order that they may acquire this by practical experience, efforts should be made to secure openings for a few specially selected men in up-to-date alloying establishments in India; for in the Indian industry facilities for practical training are practically nil at present, except in *Alloys*.

(v) *VII. Alloying*—No scholarship be granted to a candidate who does not possess some knowledge of the alloying industry as carried on in India, and has reached the B.Sc. standard in chemistry.

(vi) *VIII. Foundry*—(i) As regards students who are at becoming engineers or managers of foundries—

(a) Handary experience with the Indian foundry is desirable, and a knowledge of Indian methods is essential.

(b) Where these conditions are satisfied, high academic qualifications need not for the present be insisted upon; a fair knowledge of chemistry, physics, and some knowledge of mathematics and engineering with the same degree of weight and accuracy will suffice.

(c) As regards those who intend to take up scientific research as applied to Indian industries—

(i) The scholarship shall only be granted after the student has received the highest scientific training in India.

(ii) He must have shown considerable aptitude for research work.

(iii) *IX. Chemical Metallurgy*—The grant of scholarships for the study of chemical industries in the United Kingdom of doubtful utility; training in India would be preferable, and before any such scholarship is granted, inquiry should be made as to the possibility of providing in Europe a complete training in the special branch of industry concerned, full particulars being furnished to the India Office as to candidate's qualifications and prospects of finding employment on their return to India.

(iv) *X. Other Industries*—The following statement shows the degree of proficiency that should have been attained by candidates in the case of the industries mentioned:—

Kind of Industry.	General standard qualification required.
Chemical-making	Intermediate (Mathematics, Physics and Chemistry).
Quarrying	B.Sc. (Chemistry).
Metallurgy of iron and steel	B.Sc. standard in Chemistry, Physics (Theoretical and practical), Mathematics, Mechanics and Practical Geometry.
Paper-making	Intermediate (Mathematics and Chemistry).
Pottery	Matriculation (Physics including Heat and Electricity), Chemistry.
Railway carriage and wagon building ..	Bachelor of Engineering.

ANNEXURE II.

Know all Men by these presents, that We, (signifying a source of instruction in connection with a Government Technical Scholarship) and do hereby bind ourselves, and each of us, our and each of our heirs, executors, and administrators, to pay to the Secretary of State for India in Council, or the Government of India as the one may be, the sum of

Rs. 1000/-

THE APPRENTICES EXAMINATION—OCTOBER 1918.

Candidates for the coming Apprentice Examination are informed that the examination will be held in the Christian College Hall on Saturday, 26th October 1918, as follows:—

1918.	1918.	1918.
Saturday, 26th October	11 a.m. to 1 p.m.	2 to 4 p.m.
	Practice and Procedure	Principles (Continued)
	(Civil).	

1. Candidates will be allowed to answer certain questions with the aid of books. They may bring with them any or all of the following books on the morning of the 26th October 1918:—

- (a) The Rules of the High Court, Original Side, 1912.
- (b) Do. Appellate Side.
- (c) The Civil Rules of Practice, 1909.
- (d) The text of the Civil Procedure Code.

And in the afternoon of the same day, the text of the Criminal Procedure Code.

N.B.—No book should contain any notes of any sort, manuscript or printed. If any candidate brings with him a book containing notes, he will be liable to disqualification.

The use of the above books will be allowed in answering the questions in the second half of each of the above papers.

Candidates on entering the examination room will leave their books in charge of the Examination Superintendent. At 12 noon and 4 p.m. the answers to the questions for which no books are permitted will be collected. New answer books will then be distributed and candidates will, without leaving their seats, receive their permitted books from the Superintendent.

3. Candidates coming to the examination room after 10.10 a.m. or 3.50 p.m. will not be admitted.

4. No candidate will be permitted to leave the examination room till after 10.30 a.m. or 2.30 p.m. and a candidate once quitting the examination room will not be again admitted.

5. Candidates are requested not to spoil the floor by throwing ink, etc. They should not detach any sheets from their answer books.

But and Second, etc., (Bottle supply).—Certain articles to be ordered for in quantities as required. Payment will be made on monthly bills. Supplies to continue from 1st October 1918 to 31st March 1919.

2. The articles required are detailed in the detailed schedules annexed, and information as to samples, etc., may be had on personal application at the hospital.

3. A separate tender must be sent in for each article. It must be accompanied with samples of the articles excepting those of European manufacture.

4. Tenders will be opened by the Senior Medical Officer at the General Hospital at the specified time in the presence of those interested who may choose to attend.

5. Tenders to be accompanied by the money classified in paragraph 1 and on the cover the words "Tenders for hospital supplies" written. Each tender must contain not only the rates, but the total value of each class of supply entered in a separate column, the items in which must be totalled by showing the aggregate value of each tender tender.

6. Each tender must be accompanied by a deposit (in Government promissory notes or bank receipts) as security-money of the amount noted against each article. When several articles are tendered for, the bank receipt for the total amount of security-money will be received. In default of such deposit the tender will be rejected, nor will any tender be received after the time fixed for the opening of tenders. No cash will be returned. The deposit will be returned to successful tenderers immediately and to the others as soon as they have lodged the security mentioned in paragraph 6.

7. No person making a tender shall be allowed to withdraw his tender for the space of thirty days from the date thereof, and in the event of his so doing his deposit shall be forfeited to Government.

8. The successful tenderer for hospital supplies must, within three days from date of receiving intimation that his tender has been accepted, lodge security, viz., 10 per cent on the total value of the articles, taking which his deposit will be refunded to Government.

9. No advance of cash will be made to the contractor.

10. Bills on presentation will be passed by the Deputy Assistant-Comptroller for payment of the Madras Bank after delivery of the articles.

11. A fine, not exceeding 10 per cent of deposit money, will be levied for any infringement of the stipulations of the bond, and if frequently repeated, the contract will be annulled and the security forfeited to Government.

12. The contract must not be subject. The contractor's security will be returned to him immediately on completion of his contract.

GOVERNMENT LEPER HOSPITAL, MADRAS.

TENDERS FOR SUPPLY OF ARTICLES OF DIET AND HOSPITAL SUPPLIES.

Notices are hereby given that sealed tenders will be received up to 8-30 a.m. on Saturday, the 7th September 1916, by the Superintendent, Government Leper Hospital, for the supply of articles as per annexed schedule, viz:—

Schedule A containing articles which must be supplied in bulk, within seven days from date of order. Payments will be made in full after delivery. Samples of all articles may be seen at the Hospital between 7 and 10 a.m.

5. The rate for each article must be separately quoted in the tender and the total value of each item of supply entered in a separate column, the items in which must be totalled up, showing the aggregate value of each entire tender.

6. If the successful tenderer for any articles specified in schedule A shall fail to deliver the same within seven days from date of the order, his surety-money will be forfeited to Government.

7. Tenders, which should be in duplicate, must be accompanied with samples of each article tendered for, none of the value being at least one annam. Each tender must be accompanied by a Bank of Madras deposit receipt, equal to 10 per cent of the total value of the tender, and in default of such deposit the tender will be rejected; nor will any tender be accepted above the approved hour and date. No such deposit can be retained. The deposit will be returned to the unsuccessful tenderer.

8. No person making a tender shall be allowed to withdraw his tender for the space of thirty days from the date thereof; and in the event of his so doing, his deposit shall be forfeited to Government.

9. No extracts of such will be made to competitors.

10. The contract must not be signed without the express sanction in writing of the Superintendent.

11. The Superintendent reserves to himself the right to reject any tender or to decline to accept the tender for any one or more of the articles tendered for by the tenderer without assigning any reason for so doing.

12. Bills on presentation will be passed by the Deputy Assistant-Secretary for payment at the Madras Bank after delivery of the articles.

13. With reference to the stipulations contained in the preceding paragraphs, the tenderer should attach a certificate to his tender to the following effect:—

"I, the tenderer, agree to have the articles, money contained in Government in case of my failure to undertake the order. I further undertake to supply a quantity of any article equal to 10 per cent in excess of that specified in my tender, and at the same rate, should I be required to do so by the Superintendent."

Superintendent.

Madras, 28th August 1916.

GOVERNMENT OPHTHALMIC HOSPITAL, MADRAS.

TENDERS FOR SUPPLY OF ARTICLES OF DIET AND HOSPITAL SUPPLIES.

Notices are hereby given that sealed tenders, in duplicate, will be received up to 10 a.m. on Friday the 9th September 1916 by the Superintendent, Government Ophthalmic Hospital, for the supply of non-perishable articles in bulk, as detailed in the annexed schedule, for the Government Ophthalmic Hospital, Madras.

2. A separate tender must be sent for each group of articles.

II-4

2. Trials will be opened by the Superintendent, Government Dispensary Hospital, Marshall's Road, Ervodia, at the appointed time in the presence of those interested who may choose to attend.

4. Taxpayers to be responsible for showing the number of the group or article. Each tender must contain not only the items, but the total value of each item of supply entered in a separate column, the items in which must be totalled up.

5. Each teacher must be accompanied by a deposit in Government treasury notes or Bank receipts equal to 8 per cent on the total value of the order, and in default of such deposit, the order will be rejected, nor will any teacher be summoned after the time fixed for the opening of school. Deposit will be refunded. The deposit will be returned to unsummoned teachers immediately.

6. The successful tenderer shall be required to deliver the articles except roller, rim, rim cap and shell in bulk not more than 10 days after acceptance of tender. Payment will be made as soon as possible after delivery.

7. The successful tenders, after receiving information that his tender has been accepted, must supply the articles by bulk before the published date, failing which his earnest-money will be forfeited to the Government.

8. Samples of the different articles sent to formula I by each tenderer after work has ended. The samples of the accepted tenders will be sealed and lodged in the office of the Superintendent, Government Industries Board.

8. The Superintendent, Government Ophthalmic Hospital, reserves to himself the right to reject any tender or to decline to accept the tender for any sum or more of the moneys tendered for by the tenderer without assigning any reason for doing so.

18. Trades containing rates manifestly below the market value of articles, will be summarily rejected.

11. Every contract on the tender must correctly be initialed by the tenderer, failing which the tender will be rejected.

"I, the undersigned, agree to bear the current money confiscated to Government in case of my failure to undertake this teacher."
